Dignity of Risk

Video: <https://youtu.be/uI5jGydMj1A>

What is dignity of risk?

Dignity of risk is another way of saying you have the right to live the life you choose, even if your choices involve some risk.

If something you want to do involves some risk to you, your aged care provider should support you and your representative to understand the risks and manage them. They should also respect your wishes and preferences.

Your aged care provider should:

-  Make sure you understand the risks to you and others
-  Work with you to manage those risks
-  Respect your decisions
